Org Ref sample document

A (somewhat) complete reference

Contents

1 How to use

`org-ref` is an awesome package to work with citations within `org-mode`. In the Dutch educational system the APA guidelines apply (SURF (2018)). Use the function `org-ref-insert-link` to insert a direct citation from your bibtex file.
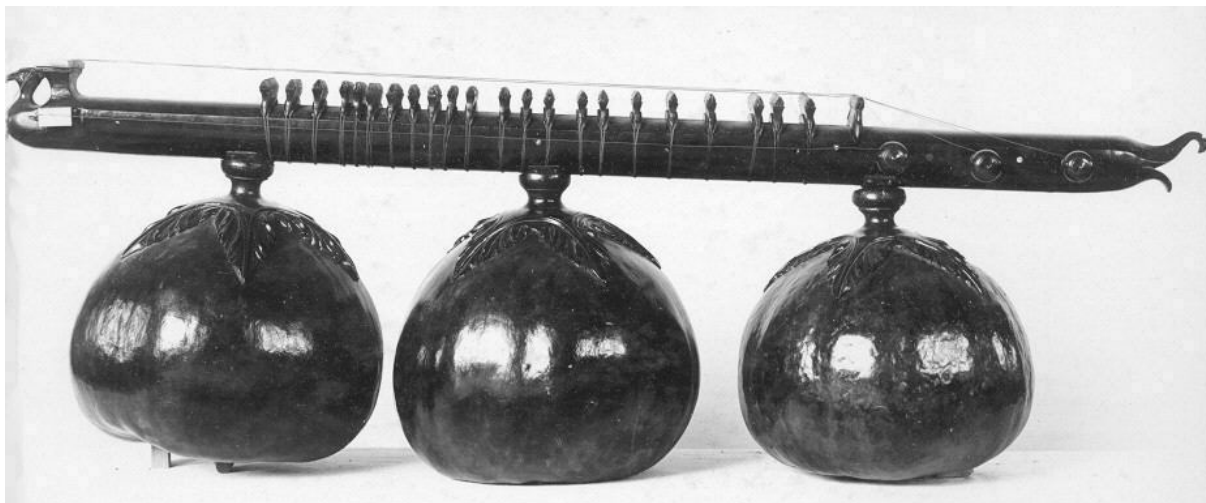

Lets see if it will work with pandoc.

Figure 1: caption

Cross reference a figure or a table by using `org-ref-insert-ref-link` to the above figure. At this time it does not work correctly. Org ref produces ref:fig:tstfigure, which is not understood by Pandoc, so use Figure 1 instead.

2 Bibliography
